

# Disabled Course Codes

02/24/2026 3:51 pm EST

NCDPI has collaborated with Infinite Campus to incorporate Historical Disabled Course Codes into NCSIS. When a course is disabled, it will have an end date added in the Course Management tool and be added to the NC State Disabled Course Catalog. The information below provides information on where to find the disabled course information. Filters have been provided by NCDPI to help PSUs determine if any disabled courses exist or have sections in the year the course will no longer be available.

## Course Management

An end year has been added to each code that is no longer available for use. The end year for the course codes can be found in Course Management.

### Scheduling & Courses > Courses > Course Management

- The End Year displays the year the course was disabled.
- Use the Search options at the top of the list to search for specific courses.

## Course Masters

Any course master connected to a disabled state course code was moved from the NC Course Catalog to the NC State Disabled Course Catalog. Course Masters for historical disabled course codes were also created and added to the NC State Disabled

Course Catalog. This catalog is for NCDPI use only - PSUs should not modify the state disabled course catalog.

**Grading & Standards > Grading & Standards Administration > Course Catalogs.**

This update allows staff with Transcript tool rights to add grades with disabled course codes as needed for transfer students. This also allows the ability to update/correct active students' transcript records listed with disabled course codes.

## Adding Disabled Transcript Grades

**Student Information > General > Transcripts**

When adding a new grade with a disabled course number, **do not** uncheck the Auto-fill box. Leaving the box checked ensures the correct data is placed in the appropriate fields for the state code, state code name, and GPA Weight. The Course Number dropdown will indicate that the course is in the NC State Disabled Course Catalog. Other fields must be completed manually. Course names have been shortened to 30 characters to meet IC's character limit.

A screenshot of a "Course Information" form. At the top, there is a checked checkbox labeled "Auto-fill Course Fields Based on Course Number Selection" with an information icon. Below are four input fields: "State Code" (text box with "TL492X0"), "State Code Name" (text box with "Prncpls of Aviation Aerospace"), "Course Number" (dropdown menu with "TL492X0" selected and a blue highlight showing "TL492X0 - Prncpls of Aviation Aerospace NC State Disabled Course Catalog"), and "Course Name" (text box with "Prncpls of Aviation Aerospace"). At the bottom left is a date field with "03/07/2025" and a calendar icon.

## Disabled Course Code Filters

NCDPI has provided filters to identify courses that have been disabled but exist in the year the course has been ended. If course section placements were copied to the future year in the calendar roll forward process, the sections will need to be deleted prior to deleting the course code in the future year.

Course codes that have been disabled must be deleted from the course/section list in the first year the course code is no longer available. Use the filters below to identify the disabled course codes.

# Disabled Courses: Sections Exist in Calendar

This filter will return disabled course codes in the context selected that have existing sections.

## Reporting > Ad Hoc Reporting > Filter Designer

1. Select the future year in the context. This filter can be used for All Schools or by individual calendars.
2. Expand the State Published folder.
3. Select the curriculum Disabled Courses: Sections Exist filter.
4. Select Test or Export to see the courses that are active in the future year.

The report will show disabled courses with sections, and which calendar the section is associated with. Use the Export to Excel or Export to PDF to export the data into a file.
