Disabled Course Codes

NCDPI has collaborated with Infinite Campus to incorporate Historical Disabled Course Codes into NCSIS. When a course is disabled, it will have an end date added in the course code setup tool and be added to the NC State Disabled Course Catalog. The information below provides information on where to find the disabled course information. Filters have been provided by NCDPI to help PSUs determine if any disabled courses exist or have sections in the year the course will no longer be available.

Course Code Setup

An end year has been added to each code that is no longer available for use. The end year for the course codes can be found in the course code setup.

Grading & Standards > Grading & Standards Administration > Course Code Setup

- The End Year displays the year the course was disabled.
- Use the Search options at the top of the list to search for specific courses.

The screenshot shows the 'Course Code Setup' page. At the top, there are search criteria fields for 'Code', 'Name', 'Abbreviation', and a 'Search' button. Below the search area is a table titled 'Course Code List' with columns: Code, Name, Abbreviation, Transcript, Type, Weight, Start Year, and End Year. The table lists various course codes, such as 43082X0, 43085X0, 43092X0, 45055X0, CD205X0, CD215X0, CD202X0, CD202070, CD202080, CL312X0, CL312X0, TL512X0, CL315X0, TL515X0, CL320X0, IK322X0, and CL335X0. The 'End Year' column for CL312X0 is highlighted with a red arrow and shows the value '2025'. Below the table is a 'Course Code Detail' box with fields for Start Year (2025), End Year (2025), Code (CL312X0), Name (3D Modeling II), Transcript (X), Abbreviation, and Weight (1).

Course Masters

Any course master connected to a disabled state course code was moved from the NC Course Catalog to the NC State Disabled Course Catalog. Course Masters for historical disabled course codes were also created and added to the NC State Disabled Course Catalog. This catalog is for NCDPI use only - PSUs should not modify the state disabled course catalog.

Grading & Standards > Grading & Standards Administration > Course Catalogs.

The screenshot shows the 'Course Catalogs' page. At the top, there are two buttons: 'New Course Catalog' and 'New Course Master'. Below the buttons is a 'Course Catalogs' section with a list of catalogs: 'NC Course Catalog' and 'NC State Disabled Course Catalog'. Both items are preceded by a plus sign and a folder icon.

This update allows staff with Transcript tool rights to add grades with disabled course codes as needed for transfer students. This

also allows the ability to update/correct active students' transcript records listed with disabled course codes.

Adding Disabled Transcript Grades

Student Information > General > Transcripts

When adding a new grade with a disabled course number, **do not** uncheck the Auto-fill box. Leaving the box checked ensures the correct data is placed in the appropriate fields for the state code, state code name, and GPA Weight. The Course Number dropdown will indicate that the course is in the NC State Disabled Course Catalog. Other fields must be completed manually. Course names have been shortened to 30 characters to meet IC's character limit.

Disabled Course Code Filters

NCDPI has provided filters to identify courses that have been disabled but exist in the year the course has been ended. If course section placements were copied to the future year in the calendar roll forward process, the sections will need to be deleted prior to deleting the course code in the future year.

Course codes that have been disabled must be deleted from the course/section list in the first year the course code is no longer available. Use the filters below to identify the disabled course codes.

Disabled Courses: Sections Exist in Calendar

This filter will return disabled course codes in the context selected that have existing sections.

Reporting > Ad Hoc Reporting > Filter Designer

1. Select the future year in the context. This filter can be used for All Schools or by individual calendars.
2. Expand the State Published folder.
3. Select the curriculum Disabled Courses: Sections Exist filter.
4. Select Test or Export to see the courses that are active in the future year.
