Report: Invalid GPA Weight on MS for HS Credit Courses

Flags MS for HS courses where the GPA Weight is not 0

Scenario 1: GPA weight on the course code setup is not zero for a MS for HS Credit Course

- 1. Navigate to Grading & Standards > Grading & Standards Administration > Course Catalogs
- 2. Select NC Course Catalog (not the + sign, but the name)
- 3. Ensure that GPA Weight is checked and click Save (must be locked to push changes from master to course)
- 4. Search for and select the Course Master
- 5. Navigate to Grading & Standards > Course Masters > Course Master Information
- 6. For the State Code field, select a different code, then reselect the correct state code. This will automatically update the GPA field to be correct Please note that this will change the Course Number and Name to match the State Code, so you will need to change those back to the original
- 7. Click Save
- 8. Select **Push to Courses** (Courses must be linked to Course Master for data to push)
- 9. Choose the appropriate year and destination calendars (you may need to push to multiple calendars if it needs to be fixed in multiple)
- 10. Select the following Push Options: Check Course Info
- 11. Click Push
