Summer School Graduates

If a Summer Education program is assigned to a student with the **Program Exit Status** of "SGR: Summer School Graduate", a process called an Event and Action will cause the following steps to take place:

1. The end date of the summer education program is examined to determine if a student should be enrolled in a summer school calendar attached to the student's prior year or the student's future year.
2. If the correct summer school calendar is found at the same school as their previous enrollment, an enrollment will be created for the student in the summer school calendar with the following characteristics:
 - a. **Start Date:** Start date of the program
 - b. **Start Status:** S1: Summer Enrollment
 - c. **Grade:** Grade level of the previous enrollment
 - d. **Service Type:** Primary
 - e. **End Date:** End date of the program
 - f. **End Status:** W6: High School Graduate
 - g. **Start Comment:** Created from Summer Education Record
3. **Note:**
 - a. If a summer school calendar is not found at the school of the student's previous enrollment for the correct year, no enrollment is created. See the [Create Summer Calendar High School](https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/create-summer-calendars-copy) (<https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/create-summer-calendars-copy>) article for information on setting up the appropriate summer calendar.
 - b. If a summer school enrollment has already been created, the event and action will not duplicate it.
 - c. This process works whether the Summer Education Program is created manually or through the Federal/State Program Update Wizard.
 - d. This process will only create an enrollment for a student. All other steps in the [Summer Graduate](https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/summer-graduate) (<https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/summer-graduate>) article must be followed.
