Retentions End of Year

Prior to ending retention enrollments for the current year, ensure the following steps have been completed

1. **Enrollments are Rolled Forward** (<https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/create-future-enrollments>)
2. Principal's Monthly Report 9 Submitted
3. Student Status for CTE Programs have been updated
4. **Graduate Enrollments have been ended** (<https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/end-enrollments-for-eoy>)

Students that will be retained at the end of the school year will need to have their end status, end date, and end action updated prior to processing promoted students' end enrollments. This process can be done by updating each individual student's current enrollment local end status, end date, and end action or can be done by creating Retention ad hoc filter. The sections below provide a guide on creating a Retention Filter and updating the necessary fields using the filter.

ECS students who return for another year in grade 12, should have an end date of the last instructional day of the school year and a P: Promote end action. Follow the steps to Adding an XG Flag article to add an XG flag as applicable. The students should have a future enrollment in grade 12.

Create Retention Filter

Create a Retention ad hoc filter to use to complete the end enrollment process with the correct information for retained students. This can be completed by creating an hoc using the:

- **Advanced Person Search | NC Department of Public Instruction**
(<https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/advanced-person-search>)
- **Infinite Campus Multi-Select | NC Department of Public Instruction**
(<https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/multi-select>)
- **Selection Editor | Infinite Campus** (<https://kb.infinitecampus.com/help/selection-editor>)

Student Numbers can be copied and used in the creation of an ad hoc using the Advanced Person Search or the Multi-Select ad hocs. The Selection Editor ad hoc allows the selection of students from a list.

Any updates to retentions, must be updated in the ad hocs manually.

End Retention Enrollments

Students that will be retained must have their enrollments ended prior to promoted students ending enrollments. Follow the steps below to end retained student's enrollments for the current year. If applicable, graduates should be processed before retentions are processed. Ending retention enrollments should be complete prior to ending promotion enrollments.

Before ending current year enrollments, ensure student enrollments have been rolled forward.

Make sure the school context is the current year.

Enrollment End Batch Process

This tool processes enrollment records for all students in the selected calendars and grade levels at the end of the school year. Enrollment End Dates, Enrollments and Graduation records are only modified if the fields selected to be filled on this editor are blank on the student's Enrollment record and have the Graduation values entered. Students who are already marked as Retained or Demoted on their Enrollment records will not be processed by this tool. If students are assigned academic plans, process the graduating class using the Post Diplomas mode on the Course Plan Admin tool. This applies to the following:

Use the same Retention ad hoc filter to review just the students that were retained. This report can be generated in a CSV format to be opened in a spreadsheet view to filter as needed.
