Adding Victim Resolution

Victim Resolutions have been added to the Core Attribute Dictionary. ([System Settings > Custom Data and Links > Core Attribute/Dictionary > Behavior > State Resolution Code \(61\)](#)). Any active code seen here should have a matching/corresponding Behavior Resolution Type available under [Behavior Office > Settings > Resolution Type Setup](#) in the **All Schools** context.

Districts must create the Victim Resolutions in Resolution Type Setup and map the appropriate state resolution code to the local resolution.
