The [SASA Manual](https://www.dpi.nc.gov/districts-schools/district-operations/financial-and-business-services/student-accounting) (https://www.dpi.nc.gov/districts-schools/district-operations/financial-and-business-services/student-accounting) identifies

students enrolled for less than 50% of the instructional day as visiting under applicable Admission Status codes. The figure is not rounded; a student enrolled for 49.9% of the instructional day does not meet the 50% membership requirement.

Note: A Visitor Admission Status may be correct when the student's schedule accurately reflects an instructional day that does not meet membership requirements. The purpose of INFO-05 is to verify that both the schedule and Admission Status accurately represent the student.

Recommended Action

Determine whether the student's **schedule** and **Admission Status** accurately reflect the student's instructional day or program.

Schedule and Visitor Admission Status Are Correct

If the student's schedule is accurate and the Visitor Admission Status appropriately reflects the student's circumstances:

- Confirm that all applicable courses are included in the student's schedule.
- Confirm that roster dates are accurate.
- Confirm that the Visitor Admission Status is appropriate according to the [SASA Manual](https://www.dpi.nc.gov/districts-schools/district-operations/financial-and-business-services/student-accounting#SchoolAttendanceandStudentAccountingManualSASA-1394) (<https://www.dpi.nc.gov/districts-schools/district-operations/financial-and-business-services/student-accounting#SchoolAttendanceandStudentAccountingManualSASA-1394>).
- No correction is needed.

Student Schedule Is Incorrect

If the student's schedule does not accurately reflect the instruction the student receives:

- Determine the courses the student should attend.
- Add any missing course or section enrollments, as appropriate.
- Correct inaccurate roster dates, when applicable.
- Confirm that the corrected schedule accurately represents the student's instructional day.
- Review the student's Admission Status again after correcting the schedule.
- Determine whether the existing Admission Status remains appropriate.

Important: Do not add courses or change roster dates only to change the student's membership status. The schedule must accurately reflect the instruction the student receives.

Admission Status Is Incorrect

If the student's schedule is accurate but the Visitor Admission Status does not accurately reflect the student's

instructional program:

- Review the student's enrollment and instructional program.
- Refer to the [SASA Manual](https://www.dpi.nc.gov/districts-schools/district-operations/financial-and-business-services/student-accounting#SchoolAttendanceandStudentAccountingManualSASA-1394) (https://www.dpi.nc.gov/districts-schools/district-operations/financial-and-business-services/student-accounting#SchoolAttendanceandStudentAccountingManualSASA-1394) to determine the appropriate Admission Status.
- Open the applicable enrollment record.
- Locate the **State Reporting Fields** section.
- Update **Admission Status**.
- Select **Save**.

Important: Do not change the accurate Visitor Admission Status only to include the student in membership. Admission Status must accurately reflect the student's enrollment and instructional program.
