RPC01 - Outcome Review

11/09/2026 8:16 am EST

Summary

RPC01 - Outcome Review lists students with one or more outcome review reasons. A reason identifies information to check; it does not always mean the student's final outcome is wrong.

Some reasons prevent the report from assigning a final outcome. These are called **blocking reasons**. A blocking reason sets finalProgressOutcome to **Review**. Other reasons still need review but may appear with a resolved final outcome. If a student has multiple reasons, a nonblocking reason may appear alongside a blocking reason.

Severity

Warning

What to Review

Check the student, school, and grade information, then read every reason in outcomeReviewReason. Multiple reasons are separated by semicolons.

Report field	What it shows
ReportEndYear	The end year of the reporting school year. For example, 2026 represents 2025-26.
schoolCode, schoolName	The school associated with the record.
studentUID, lastName, firstName	Information used to identify the student.
stateGrade	The student's grade at the reporting school during the reporting year.
finalProgressOutcome	The final progression result. A blocking reason sets this value to Review.
reportingOutcome	The classification used for PMR reporting. It may be blank when the student is not eligible or the final outcome is unresolved.
outcomeSource	The type of information used to determine the outcome, such as end of year (EOY) records, summer records, no show records, or current year enrollment.

Report field	What it shows
outcomeDecisionRule	The rule used to determine the outcome.
outcomeReviewReason	The reason or reasons the student appears in RPC01.

Reasons That Set The Final Outcome To Review

Review reason	What it means
Possible XG - GWC with Following Year Enrollment but No XG Flag	The student has a Graduated With Certificate (GWC) diploma type and following year enrollment, but no XG program flag was found. Check whether the XG information is complete and accurate.
Unmapped Diploma Type	The diploma type does not match a diploma type the report recognizes.
Unresolved Outcome Conflict	Available outcome information conflicts, and the report could not resolve the conflict.
Summer Graduation Evidence Without Valid Completion Diploma	Summer records indicate graduation, but the report did not find a recognized completion diploma.

Other Reasons That Still Need Review

Review reason	What it means
Enrollment Date Sequence Error	An enrollment entry date is later than its exit date.
Entered After School Last Day	The reporting year enrollment begins after the reporting school's last day.
W6 Used Before School Last Day	A W6 withdrawal was recorded before the reporting school's last day.
Summer and No Show Evidence Conflict	The summer outcome and the administrative no show outcome disagree.
Unmapped Summer Decision	A summer decision is present, but the report does not recognize its value.
Unmapped No Show Decision	A no show decision is present, but the report does not recognize its value.

These other reasons do not, by themselves, set the finalProgressOutcome to Review. However, each situation should be checked to verify accuracy.

Recommended Action

- Confirm that the student, school, grade, and reporting year are correct.
- Read every reason in outcomeReviewReason. Check whether any reason sets finalProgressOutcome to Review.
- Review the related source information, such as enrollment dates, outcome decisions, credential records, or XG flag information.
- Use related validation article when the reason matches a specific rule. For example, review RPC02 - Possible Missing XG (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/rpc02-possible-missing-xg) for a possible missing XG flag, or RPC03 - Summer No Show Conflict (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/rpc03-summer-no-show-conflict) for conflicting summer and no show evidence.
- Correct source information only when it is inaccurate. Do not change a record solely to remove a warning.
- If the source information is accurate, complete the review according to the applicable process, Retention/Promotion Corrections (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/retentionpromotion-corrections).

Verify the Review or Correction

- Allow the RP data to refresh overnight.
- Run the RP data validations again.
- Review RPC01 to confirm the results reflect the updated information.

A reason may remain in RPC01 when its source information is accurate or when it does not block the final outcome.
