RPC01 - Outcome Review

11/15/2026 7:53 am EST

Summary

RPC01 - Outcome Review lists students with one or more outcome review reasons. A reason identifies information to check; it does not always mean the student's final outcome is wrong.

Some reasons prevent the report from assigning a final outcome. These are called **blocking reasons**. A blocking reason sets finalReportingOutcomeType to **Review**. Other reasons still need review but may appear with a resolved final outcome. If a student has multiple reasons, a nonblocking reason may appear alongside a blocking reason.

Severity

Warning

What to Review

Check the student, school, and grade information, then read every reason in outcomeReviewReason. Multiple reasons are separated by semicolons.

Report field	What it shows
ReportEndYear	The end year of the reporting school year. For example, 2026 represents 2025-26.
schoolCode, schoolName	The school associated with the record.
studentUID, lastName, firstName	Information used to identify the student.
stateGrade	The student's grade at the reporting school during the reporting year.
finalReportingOutcomeType	The final progression result. A blocking reason sets this value to Review.
reportingOutcome	The classification used for PMR reporting. It may be blank when the student is not eligible or the final outcome is unresolved.

Report field	What it shows
outcomeSource	The type of information used to determine the outcome, such as end of year (EOY) records, summer records, no show records, or current year enrollment.
outcomeDecisionRule	The rule used to determine the outcome.
outcomeReviewReason	The reason or reasons the student appears in RPC01.

Reasons That Set The Final Outcome To Review

Review reason	What it means
Possible XG - GWC with Following-Year Enrollment but No XG Flag	The student has a Graduated With Certificate (GWC) diploma type and following year enrollment, but no XG program flag was found. Check whether the XG information is complete and accurate.
Unmapped Credential Type	The credential type does not match a credential type the report recognizes.
Unresolved Outcome Conflict	Available outcome information conflicts, and the report could not resolve the conflict.
Summer Graduation Evidence Without Valid Completion Credential	Summer records indicate graduation, but the report did not find a recognized completion credential.

Other Reasons That Still Need Review

Review reason	What it means
Enrollment Date Sequence Error	An enrollment entry date is later than its exit date.
Entered After School Last Day	The reporting year enrollment begins after the reporting school's last day.
EOY Promoted but First-Day CY Enrollment is Same Grade	The end of year outcome is Promoted, but the student's first-day enrollment for the following year shows the same grade.

Review reason	What it means
EOY Retained but First-Day CY Enrollment is Higher Grade	The end of year outcome is Retained, but the student's first-day enrollment for the following year shows a higher grade. If the final progression outcome is Continued XG, verify the XG information before reviewing other progression records.
W6 Used Before School Last Day	A W6 withdrawal was recorded before the reporting school's last day.
Summer and No-Show Evidence Conflict	The summer outcome and the administrative no show outcome disagree.
Unmapped Summer Decision	A summer decision is present, but the report does not recognize its value.
Unmapped No-Show Decision	A no show decision is present, but the report does not recognize its value.

These other reasons do not, by themselves, set the finalProgressOutcomeType to Review. However, each situation should be checked to verify accuracy.

Recommended Actions

RPC01 identifies records that need review. A reason does not always mean that a record is incorrect. Review the student's records and confirm the expected outcome before making a correction.

- Confirm the student, school, grade level, and reporting year.
- Read every value in outcomeReviewReason. If multiple reasons appear, review each one.
- Use the table below to identify the records to check and the related article to follow.
- Compare the records with the student's verified end of year and end of summer decision. For summer cases, review the student's end of year enrollment End Action, Summer Education Program Exit Status, any administrative no show enrollment, and future year enrollment. These records work together to determine the reported progression status.
- Correct a record only when it does not match the verified decision. Do not change accurate information just to remove a reason from RPC01.
- If the information is accurate but the report does not recognize a value, do not substitute a similar value. Follow the applicable reporting guidance or contact the appropriate support channel.

RPC01 reason	Review these records and follow up
Possible XG - GWC with Following-Year Enrollment but no XG Flag	Review the Graduated With Certificate information (GWC) by opening *Student Information > General > Graduation*. Review the following year enrollment by opening *Student Information > General > Enrollments*. Review the XG information by opening Student Information > General > Flags. Follow RPC02 - Possible Missing XG (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/rpc02-possible-missing-xg).
Unmapped Credential Type	Review the student's credential information and verify that the recorded value is correct. Open *Student Information > General > Graduation* and correct information only if it is inaccurate.
Unresolved Outcome Conflict	Compare the end of year enrollment decision, summer records, administrative no show records, and future year enrollment. Use the Retentions/Promotions End of Summer (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/summerretentionpromotion) process to determine which combination matches the student's verified outcome.
Summer Graduation Evidence Without Valid Completion Credential	Review the summer graduation information by opening *Student Information > General > Graduation* and checking the credential records. Correct inaccurate source record; if the recorded information is accurate but not recognized, seek guidance rather than choosing a different credential value.
Enrollment Date Sequence Error	Review the enrollment entry and exit dates. Follow RPC05 - Enrollment Date Sequence Error (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/rpc05-enrollment-date-sequence-error) and correct only the inaccurate date.
Entered After School Last Day	Compare the reporting year enrollment entry date with the reporting school's last day. Follow RPC06 - Entered After School Last Day (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/rpc06-entered-after-school-last-day) if the date or enrollment is inaccurate.

RPC01 reason	Review these records and follow up
EOY Promoted but First-Day CY Enrollment is Same Grade	Compare the prior year and end of year End Action with the first day current year enrollment grade. Follow RPC10 - EOY/CY Grade Level Conflict (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/rpc10-eoycy-grade-level-conflict). If the end of year retention or promotion was entered incorrectly, follow Retention/Promotion Corrections (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/retentionpromotion-corrections) to update the previous year End Action and current year grade. If the end of year decision is correct and the difference is due to a summer decision, follow Retentions/Promotions End of Summer (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/summerretentionpromotion).
EOY Retained but First-Day CY Enrollment is Higher Grade	Review end of year End Action, summer decision, and future year grade. A student retained at year end and promoted after summer school may correctly have a higher future year grade. If the end of year retention or promotion was entered incorrectly, follow Retention/Promotion Corrections (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/retentionpromotion-corrections) to update the previous year End Action and current year grade. If the end of year decision is correct and the difference is due to a summer decision, follow Retentions/Promotions End of Summer (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/summerretentionpromotion).
W6 Used Before School Last Day	Review the withdrawal code, exit date, and school's last day. Follow RPC04 - W6 Before Last Day (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/rpc04-w6-before-last-day) and correct the inaccurate enrollment information.
Summer and No Show Evidence Conflict	Compare the Summer Education Program decision with the administrative no show enrollment decision. Follow RPC03 - Summer No Show Conflict (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/rpc03-summer-no-show-conflict) and the Retentions/Promotions End of Summer (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/summerretentionpromotion) process. Correct only the record that does not verified decision.
Unmapped Summer Decision	Review the student's summer records in Review RP Summer School Detail (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/review-rp-summer-school-enrollment-detail-rpd03), including the Summer Education Program Exit Status. Correct an inaccurate entry; seek guidance if the recorded value is accurate but not recognized.
Unmapped No Show Decision	Review the administrative no show enrollment in Review RP Administrative No-Show Detail (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/review-rp-administrative-no-show-detail-rpd04). Correct an inaccurate decision; seek guidance if the recorded value is accurate but not recognized.

Verify the Review or Correction

After correcting a source record, allow the data to refresh overnight. Generate the (NC) Grade Level Retention and Promotion (RP) validation again and review RPC01 to confirm that the results reflect the correction. A reason may remain when the source information is accurate or when the reason does not block the final reporting outcome.
