What to Review

Review the student's reporting year enrollment to determine whether the W6 exit code and exit date are accurate. Compare the enrollment exit date with the schoolLastDay, which represents the last day of School Month 9 for the reporting school.

Use the PMR information to review the student's reported membership when additional verification is needed.

RPC04 - W6 Before Last Day report detail. Use to determine if corrections must be made.

Recommended Actions

- Confirm the student, reporting school, and reporting year.
- Compare exitDate with schoolLastDay. RPC04 reports an enrollment when the Exit Code is W6 and the Exit Date is before the last day of School Month 9.
- Open *Menu > Select Student > Student Information > General > Enrollments.* Select the enrollment for the reporting school and school year.
- Compare the enrollment's End Date and End Status with the student's actual exit circumstances. If the W6 exit is related to graduation, also review diplomaDate and diplomaType.
- If the End Date and End Status are accurate, do not change the enrollment. A valid record may remain in the RPC04 because the exit was recorded before the school's last day.
- If the End Date or End Status appears inaccurate, do not edit previously reported enrollment data as part of routine RPC04 cleanup. Document the discrepancy.
- If additional PMR review is needed, compare pmrEndStatus, pmrEndDate, and pmrMLD with the PMR information. Use membershipPopulationStatus to see whether PMR and enrollment based membership differ. For detailed membership review, follow Review PMR Membership Last Day (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/review-pmr-membership-last-day).
- If the review also identifies an incorrect end of year retention or promotion, follow Retention/Promotion Corrections (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/retentionpromotion-corrections). If a summer decision affects the expected outcome or grade level, first follow Retentions/Promotions End of Summer (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/summerretentionpromotion). These articles guide progression corrections. Communicate with the PSU's Accountability department if there were incorrect end status and exit codes for guidance.

Do not change an accurate enrollment exit date or exit code solely to remove the RPC04 warning. A valid record may continue to appear in the report.

Review the enrollment End Date and End Status.

Verify the Review or Correction

Because the reporting year information has been reported to the state, do not make a routine enrollment correction through RPC04. Document the review.
