RPC05 - Enrollment Date Sequence Error

11/09/2026 8:17 am EST

Summary

RPC05 - Enrollment Date Sequence Error lists enrollment records where the entry date is later than the exit date. Review the student's enrollment record and confirm that both dates are accurate.

This warning does not, by itself, change the student's final progression outcome to **Review**.

Severity

Warning

What to Review

Review the student's reporting year enrollment to determine whether the entry date occurs after the exit date.

Use the schoolCode, schoolName, stateGrade, entryDate, and exitDate fields in RPC05 to identify the enrollment record requiring review.

Note: RPC05 identifies an enrollment date sequence error when the entry date is later than the exit date. An enrollment without an exit date does not trigger this warning.

The schoolLastDay field is provided for reference and does not determine whether the record appears in RPC05.

Report field	What it shows
ReportEndYear	The end year of the reporting school year. For example, 2026 represents 2025-26.
schoolCode, schoolName	The school associated with the record.
studentUID, lastName, firstName	Information used to identify the student.
stateGrade	The student's grade at the reporting school during the reporting year.
entryDate	The entry date of the reporting year enrollment used in the validation.
exitDate	The exit date of the reporting year enrollment used in the validation.

Report field	What it shows
schoolLastDay	The last day of the reporting school's calendar, provided for reference.
finalProgressOutcome	The student's final grade level progression result.
outcomeReviewReason	The identified progression review reason or reasons. May include other conditions in addition to RPC05.

Note: The report does not display the enrollment exit code. Open the student's enrollment record in NCSIS to review the enrollment dates and additional enrollment information.

Recommended Action

Review the Enrollment Record

- Search for the student and navigate to *Student Information > General > Enrollments*.
- Select the reporting year enrollment record as displayed in RPC05.
- Open the enrollment record and review the following information:
  - Start Date
  - End Date
  - Start Status
  - End Status
  - School and calendar associated with the enrollment
- Compare the enrollment dates with the dates displayed in RPC05.
- Determine whether the enrollment entry date or exit date is incorrect.

Do not change a reporting-year enrollment Start Date or End Date as part of RP cleanup. If a date appears inaccurate, document the discrepancy and contact NCDPI for further instructions. Do not change a date solely to clear a warning or change a summary count.

Verify the Review or Correction

No corrections should happen unless instructed by NCDPI.
