

Review RP Full Detail

11/12/2026 4:59 pm EST

Summary

The **RPD01 - Full Detail** report displays student grade level progression information for the selected reporting year. The report includes the available end of year (EOY), summer, no show, and current year (CY) enrollment outcomes used to determine each student's final progression outcome.

Use this report to:

- Review how a student's final progression outcome was determined.
- Compare the reported outcome with the student's enrollment and program records.
- Identify conflicting or incomplete information that may require additional review.
- Determine which RP cleanup validation or related article provides guidance for investigating a record.
- Review population eligibility when comparing individual student records with RP Summary Reports.

The report includes students with different progression outcomes, including Promoted, Retained, Reclassified, Graduated, and Continued XG, when applicable. Some records may require additional review before final outcome can be determined.

Note: RPD01 is an informational report. A student appearing on this report does not indicate that a correction is required. Review the supporting records and applicable validations before making changes.

Severity

Information

What to Review

Compare the student's reporting information, progression outcomes, and supporting enrollment or program records to determine how the final progression outcome was established.

Report field	What it shows
ReportEndYear	The end year of the reporting school year. For example, 2026 represents 2025-26.
schoolCode, schoolName	The school associated with the student's progression record.

Report field	What it shows
studentUID, lastName, firstName	Information used to identify the student.
stateGrade	The student's grade level at the reporting school during the reporting year enrollment.
exitDate	The exit date associated with the student's reporting year enrollment.
exitCode	The exit code recorded for the student's reporting year enrollment.
exitAction	The administrative End Action recorded for the student's reporting year enrollment. This value may be used to determine the end of year progression outcome.
diplomaDate	The diploma date recorded for the student, when applicable.
diplomaType	The diploma type recorded for the student, when applicable.
xgStudent	Indicates whether the student has the XG designation used by the progression reporting process. A value of 1 indicates yes; 0 indicates no.
midYearOutcome	Displays Graduated when the report identifies the student as a midyear graduate; otherwise, the field is blank.
eoyOutcome	The end of year administrative outcome determined from the student's reporting year information: Promoted, Retained, or Reclassified, when available.
summerOutcome	The latest resolved summer outcome, when qualifying summer information is available. Conflict indicates that the latest summer decisions disagree.
noShowOutcome	The progression outcome associated with an applicable administrative no show record.
cyStateGrade	The student's grade level in current year (CY) enrollment at the reporting school.
cyGradeOutcome	The progression outcome determined by comparing the reporting year grade level with the current year grade level: Promoted, Retained, or Reclassified.
finalReportingOutcomeType	The final progression outcome returned in this report. The value is based on the available source records and decision rules. Values may include Promoted, Retained, Reclassified, Graduated, Continued XG, Review, or Undetermined.

Report field	What it shows
reportingOutcome	The classification used for eligible PMR progression reporting: Progressed or Retained. The field may be blank when the student is not eligible or the outcome is unresolved.
outcomeSource	Identifies the source information used to determine the final outcome, such as EOY, Summer School, Summer No Show, or CY Enrollment.
outcomeDecisionRule	Identifies the decision rule applied to determine the student's final progression outcome.
outcomeReviewReason	Identifies one or more conditions that may require additional review. Multiple reasons are separated by semicolons.
pmrPopulationFlag	Indicates whether the student belongs to the PMR reporting population. A value of 1 indicates yes; 0 indicates no.
enrollmentLastDayPopulationFlag	Indicates whether the student belongs to the end of year, last day enrollment population. A value of 1 indicates yes; 0 indicates no.
genuineEarlyLeaver	Indicates whether the student is identified as a genuine early leaver. A value of 1 indicates yes; 0 indicates no. Students identified as genuine early leavers are excluded from official progression counts.
summerEnrollmentCount	The number of qualifying summer school Enrollment records identified for the student.
summerProgramCount	The number of Summer Education program records identified for the student.
noShowRecordCount	The number of qualifying administrative no show Enrollment records included for the student.

Note: Not every student has end of year, summer, no show, graduation, or current year enrollment information. A blank field does not automatically indicate an error. Review the available source information and applicable decision rules before determining whether a correction is needed.

eoyOutcome and finalReportingOutcomeType are displayed only when the student belongs to the PMR or EOY enrollment last day population. If both pmrPopulationFlag and enrollmentLastDayPopulationFlag are 0, these fields are blank. Review the population flags and genuineEarlyLeaver before comparing the student's detail record with RP Summary totals.

Understanding Progression Outcomes

The report displays outcomes from different stages of the student's progression history. These outcomes may differ because they represent decisions recorded at different times.

- **eoyOutcome**: The end of year administrative outcome.
- **midyearOutcome**: The midyear graduate outcome.
- **summerOutcome**: The resolved summer outcome, when summer records are available.
- **noShowOutcome**: The outcome associated with an administrative no show record.
- **cyGradeOutcome**: The outcome determined by comparing the reporting year and current year grade levels.
- **finalReportingOutcomeType**: The final progression outcome determined from the available source records and applicable decision rules. Outcomes may include Promoted, Retained, Reclassified, Graduated, Continued XG, Review or Undetermined.
- **reportingOutcome**: The classification used for eligible PMR progression reporting when the student is eligible. Values include Progressed or Retained. The field may be blank when the student is not eligible or the final outcome is unresolved.

Use **noShowRecordCount** to see whether qualifying administrative no show records were included. Open RPD04 - Administrative No-Show Detail (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/review-rp-administrative-no-show-detail-rpd04) (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/review-rp-administrative-no-show-detail-rpd04)to review those records.

Note: Different outcome values do not always indicate an error. Review the source records and outcome decision information to determine whether the differences are expected.

How Final Outcomes Relate to PMR Reporting

The finalReportingOutcomeType identifies the student's determined grade level progression outcome. The reportingOutcome identifies how that outcome is classified for PMR reporting, when the student is eligible.

For students included in the applicable PMR reporting population, the following outcomes are used:

finalReportingOutcomeType	reportingOutcome
Promoted	Progressed
Graduated	Progressed
Continued XG	Progressed
Retained	Retained
Reclassified	Retained
Review	Blank
Undetermined	Blank

Note: The **reportingOutcome** may be blank when the student is outside the applicable PMR reporting population, is identified as a genuine early leaver, or has an unresolved final progression outcome. A blank reporting outcome does not automatically indicate an error.

When the Final Outcome Requires Additional Review

A student's **finalReportingOutcomeType** may display Review or Undetermined when the reporting process cannot establish a resolved progression outcome.

- **Review**: A condition requiring additional review prevents the reporting process from resolving the student's progression outcome.
- **Undetermined**: The available information does not establish a final progression outcome.

When either outcome appears:

- Review **outcomeReviewReason** for conditions requiring investigation.
- Review **outcomeSource** and **outcomeDecisionRule** to understand how the outcome was evaluated.
- Review the applicable source records and RPC01 - Outcome Review (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/rpc01-outcome-review) for additional guidance.

Note: Review and Undetermined do not automatically mean that a source record is incorrect. Confirm the student's enrollment and progression history before making changes.

Source Values Used to Determine Progression Outcomes

The following values from Enrollment and Summer Education program records may be used to determine the student's progression outcome.

Source record	Value	RP outcome
Enrollment end action	P	Promoted
Enrollment end action	R	Retained
Enrollment end action	D	Reclassified
Summer Education program exit status	SPR	Promoted
Summer Education program exit status	SRN	Retained
Summer Education program exit status	SGR	Graduated

A student identified as a genuine early leaver may appear in RPD01 but be excluded from official progression counts. Check this field when comparing detail results with summary totals.

Recommended Actions

Confirm Student Reporting Information

- Locate the student in RPD01 - Full Detail.
- Review ReportEndYear to confirm the reporting school year.

- Verify the reporting school and grade level information.
- Confirm the information matches the student's reporting year enrollment.

Note: If the student has multiple enrollment records or attended multiple schools, review the applicable enrollment history before determining whether the reported information is accurate.

Compare the Progression Outcomes

Review the following fields to understand the student's progression history:

- **eoyOutcome**: Identify the outcome recorded at the end of the reporting year.
- **midyearOutcome**: Identify the midyear graduate outcome recorded.
- **summerOutcome**: Review the outcome of any qualifying summer records.
- **noShowOutcome**: Determine whether an administrative no show outcome is present.
- **cyStateGrade**: Identify the student's current year grade level.
- **cyGradeOutcome**: Review how the current year grade compares with the reporting year grade.
- **finalReportingOutcomeType**: Identify the final progression outcome determined by the report.

Compare the outcomes to identify differences that may require additional review.

Note: Not every student has summer, no show, or current year enrollment information. A blank field does not automatically indicate an error.

Identify How the Final Outcome Was Determined

Review the following fields:

- **outcomeSource**: Identify the source information used to determine the final outcome.
- **outcomeDecisionRule:** Review the rule applied to determine the outcome.
- **outcomeReviewReason**: Identify any additional conditions that may require review.

Use the source information to determine which enrollment or program records should be reviewed.

Note: Multiple review reasons may appear in outcomeReviewReason, separated by semicolons. Review each reason independently. A review reason does not automatically indicate that the source information is incorrect.

Review the Supporting Student Records

Base on the information identified in early sections, review the applicable source records.

- **End of year outcome**: Review the reporting year enrollment, exit information, and administrative end action.
- **Summer outcome**: Review the Summer Education program records, exit statuses, and qualifying summer enrollment records.
- **No Show outcome**: Review the administrative no show enrollment information.

- **Current year grade outcome**: Review the current year enrollment and grade level.
- **Graduation or XG outcome**: Review the applicable enrollment, graduation, diploma, and XG information.

Compare the source records with the outcomes displayed in RPD01.

Review Related RP Validations

If the source records contain conflicting or unexpected information, review the applicable RP Cleanup Validations (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/rp-cleanup-validations).

Use the article to identify the condition being reported, determine which records require review, and locate the appropriate correction instructions.

Note: A student may appear in RPD01 without appearing in an RP cleanup validation. Review the available source records before determining whether a correction is necessary.

Determine Whether a Correction Is Needed

After reviewing the source records and applicable validations:

- Confirm whether the recorded information accurately reflects the student's enrollment and progression history.
- If the information is accurate, do not change the record solely to produce a different progression outcome.
- If the information is inaccurate, follow the applicable correction article to update the source record.
- Review pmrPopulationFlag, enrollmentLastDayPopulationFlag, and genuineEarlyLeaver when comparing the student's outcome with RP Summary totals.

For additional correction guidance, see Retention/Promotion Corrections (https://ncdepartmentofpublicinstruction.knowledgeowl.com/home/retentionpromotion-corrections).

Verify the Review or Correction

After reviewing the record or correcting inaccurate source information:

- Allow the RP data to refresh overnight.
- Run the RP data validations again.
- Review RPD01 to confirm that the outcome reflects the available information.
